### Experience

#### Capgemini Technology Services India Limited

Software Engineer

May 2022 - May 2024

Kolkata

Project: HSBC Web App

- Delivered features for HSBC's web applications using React for robust frontend solutions
- Transformed design concepts into functional, responsive user interfaces
- Collaborated with teams for API design, development, and integration, adhering to best practices
- Enhanced codebase quality by enforcing coding standards.

#### Shivila Technologies Pvt. Ltd.

React Developer

Jan 2022 - May 2022

Remote

Projects: Admin Panel and Social Media Prototype

- Collaborated with a cross-functional team in design and development of Admin Panel Dashboard.
- Enhanced project functionality by implementing CRUD operations.
- Built Social Media App prototype interface using React Native and integrated backend APIs using Axios.
- Provided leadership to a frontend team comprising 7 to 10 members.

#### Aizawl Smart City Limited

Computer Engineer Intern

Oct 2020 - Feb 2021

Aizawl

- Improved the internal web portal by implementing UI enhancements, rectifying bugs, and adding new features, resulting in a more user-friendly and efficient system.
- Coordinated with System Analysts to manage the Ministry of Housing and Urban Affairs (MoHUA) database, ensuring data accuracy and integrity.
- Enabled future city development by successfully geo-tagging and cataloging locations, providing valuable data for urban planning and infrastructure projects.

### Education

#### Mizoram University

Computer Engineering

7.06/10 CGPA

Aug 2015 - Jul 2019

Bachelor of Technology
